ISAKROUHEN Yasmine

5th-Year Big Data and AI Engineering Student

Starting February 1, 2027 | Yasmine.Isakrouhen@emsi-edu.ma | +212 632825077 | Linkedin
Portfolio | Tangier, Morocco

Professional Profile

Future Big Data and AI Engineer (EMSI Tangier), specialized in Computer Vision and Data Engineering. Passionate about designing intelligent and scalable systems, I am looking for a 6-month end-of-studies internship (PFE) to tackle complex technical challenges and contribute to high-impact projects.

Experiences

Artificial Intelligence & Computer Vision Internship, *SIANA*
07/2026 – 08/2026 | Tangier
Development and optimization of YOLOv8 models for automated railway inspection, including the implementation of image processing pipelines, text extraction, and data annotation.

Data Analyst Internship, *TE Connectivity*
08/2025 | Tangier
Extraction and analysis of operational data using advanced SQL queries, coupled with data modeling and the creation of Power BI dashboards for production KPI tracking.

Data Analyst Internship, *Trigo SAS*
08/2024 | Tangier
Cleaning and structuring operational data, followed by the design of interactive Power BI dashboards to optimize operations.

Academic Projects

AuraMarket - Intelligent Multi-Agent Marketplace Platform
2026
Design and development of an autonomous multi-agent marketplace platform powered by cognitive AI and a negotiation engine (JADE), orchestrated via massive ETL pipelines (Airflow, Airbyte) and powered by a scalable microservices architecture.

Assistant Documentaire Intelligent
Conception et développement d'un système de questions-réponses augmentées par récupération (RAG) exploitant des modèles de langage open source pour l'interrogation sémantique de bases documentaires, orchestré via des pipelines de vectorisation et de recherche textuelle avancées.

Virtualization / Cloud Solutions
Design and deployment of an isolated internal network in a virtualized environment using the Proxmox VE Type 1 hypervisor

WokWise - Recruitment Web Application
2025
Design and development of a comprehensive web-based application tracking system (ATS) integrating an automated CV sorting module and advanced selection filters to optimize the recruitment process.

Education

Computer Science and Mathematics / Bachelor's Degree, *Faculty of Sciences - Abdelmalek Essaadi University*
2024 – 2025 | Tetouan

Computer Science and Networks, AI & Data Engineering Specialty / Engineering Degre,
Moroccan School of Engineering Sciences - EMSI
2025 – today | Tangier

Technical Skills

Full-Stack & Software Development
Python, Java, Spring Boot, C, .NET, React, Django, PHP, HTML, CSS, JavaScript.

AI, Vision & Cloud Engineering
YOLO, PaddleOCR, LLM, RAG, LangChain, Hugging Face, Deep Learning, TensorFlow, PyTorch, Scikit-learn.

Big Data, Streaming & Vectorization
Apache Spark, Apache Kafka, ChromaDB.

DevOps, Containerization & Virtualization,
Git, Docker, Linux, Proxmox VE.

Data & Databases
Power BI, Tables, PostgreSQL, MySQL, MongoDB, Redis, Snowflake, SQL Server, Excel Avancé.

Certifications

Agile Project Management
Google – 2026

Introduction to Big Data
University of California San Diego – 2026

Machine Learning with Python
IBM – 2026

American language center
2024

Languages

Arabic
Native

French
Bilingual

English
Fluent (C1)
